# WELCOME

Custom Pet Portraiture is so much more than just turning your beloved pet into art. For me, it is about capturing the personality, quirks and all, of your furry companion so that as the years pass by, no matter what the future has in store, you will be able to look back on these moments and remember this time in their lives.

Maybe they're brand new - still tiny, sleepy, squishy and ready to explore the big new world around them. Maybe they're an established member of the family, and you want to capture that special bond between your fur-baby and the other members of your family. Or, maybe your pet has spent their entire lifetime with you, giving you years of love, devotion, and companionship and you want to capture their spirit and what's left of that sparkle in their eye - to celebrate them and pay tribute to the wonderful life you've shared together...

No matter what your reason is for seeking out Custom Pet Portraiture, I guarantee that my passion for capturing these fleeting moments in their lives will leave you with a smile on your face and maybe a tear in your eye each time you look back on your photographs for years to come. Whether you're looking for art on your walls, or a Tribute Album to glance upon when the mood strikes, it is my passion to ensure that you walk away from this experience with exactly what you want and need.

## Custom Pet Portraiture Digital Collections

Our digital Collections were developed with our clients in mind. We've found that most people want digital files, and as such, all of our Collections include a specific number of digital images, ranging from 10 to the entire gallery (with an option to purchase more if you wish).

However, we do understand that some clients have no interest in digital files whatsoever. If this is you, and you would prefer to create a custom art piece without purchasing a digital Collection, *you may commission Raindance Photography for a fee of \$175+hst*, and then purchase only what you want and need after viewing your proofs for the first time.

We offer a great variety of high-quality boutique products and have many samples available for you to touch and feel.
